

bettering technology for today's youth

Dear Supporter:

iT Gets Better is great way for your organization to raise its visibility and demonstrate its commitment to the community, ***iT Gets Better***, a local non-profit information technology firm is committed to assisting youth development organizations, students and parents in bridging the information technology gap. We have several workshops, programs and services we offer for educators, parents and students.

The workshops, programs and services we offer range from ***workstation ergonomics, software development best practices, online etiquette, social networking relationships, fund raising online, website development services and much more.***

We are seeking the support of local merchants and supporters to help us by providing wish list items and to raise funds to assist with our workshops, programs and services. There will be many opportunities for us to promote our supporters throughout the year.

Your support in the form of monetary donations, in-kind contributions or special prizes will help us tremendously in our efforts. All donations made to our organization are tax deductible and upon request, we can provide you with the necessary 501(c)(3) documentation or other information for tax purposes.

Attached is a basic list of program needs. If you are able to support this program in any of the ways listed, please let us know as any contributions will be greatly appreciated.

We invite you to visit our website at www.itgetsbetter.org to learn more about who we are, who we serve and what we do. We pride ourselves on helping out with the GO GREEN initiative. If you want to be a sponsor please save paper and complete sponsorship information online. An iT Gets Better representative is available to speak with you at (770)-220-0708 during the hours of 9am and 2pm Monday through Friday if you have questions or need further assistance. Thank you in advance for your support as we continue to close the digital divide!

Sincerely,

Committee Member
